Ankur Tiwari

Senior Team Lead · Full-Stack Developer (Laravel, PHP, React.js, AWS)
Indore, Madhya Pradesh, India · +91 98264 23503 · tiwariankur77@gmail.com · linkedin.com/in/tiwariankur77

PROFESSIONAL SUMMARY

Full-stack web developer and Team Lead with 10+ years of experience building and shipping scalable web applications for clients across Australia, Asia, Europe and the US. Hands-on in Laravel, PHP and React.js, with strong Node.js, REST API and AWS cloud architecture experience across MERN and MEAN stacks, Docker and CI/CD. Leads teams through architecture, code review and CI/CD, and turns business requirements into delivery plans that hit milestones.

CORE SKILLS

- Backend: Laravel, PHP, Node.js (Express, Next.js, AdonisJS), NestJS, REST APIs, Laravel Passport, MVC and design patterns
- Frontend: React, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- Databases: MySQL, PostgreSQL, MongoDB, Redis
- Cloud and DevOps: AWS (EC2, S3), cloud infrastructure, Docker, Kubernetes, microservices, Jenkins, GitLab CI, SonarQube, Git
- Testing: PHPUnit, Selenium, BDD (Cucumber)
- Leadership: Agile/Scrum, team leadership, mentoring, code reviews, architecture, project management, performance optimization, security best practices
- Familiar with: Java, Spring Boot 3

PROFESSIONAL EXPERIENCE

Senior Team Lead, Development and QA, Yunicorn Technologies, Indore

2025 – Present

- Lead both the development and QA teams, owning delivery quality from build through testing.
- Guide engineers on architecture, code reviews and release readiness across the stack.

Team Lead, Kizora Software, Indore

Jan 2023 – Jul 2025

- Built web applications with React, Node.js and Laravel, applying object-oriented and procedural code, design patterns and MVC to keep codebases scalable and maintainable.
- Managed project dependencies with Composer and structure services with Laravel and RestJs.

Team Leader, Persistent Systems, Indore

Mar 2020 – Dec 2023

- Led a team of developers designing, building and deploying MERN stack applications to agreed coding standards, architecture guidelines and timelines.
- Worked with stakeholders to define technical requirements and turn business goals into actionable development plans.
- Architected scalable solutions to improve performance and user experience, including an API gateway on Node.js and Express and data layers on PostgreSQL, MongoDB and Redis.
- Ran code reviews and set up CI/CD pipelines (GitLab, Jenkins, Docker, SonarQube); wrote automated tests with PHPUnit.
- Mentored engineers on MongoDB, Express.js, React.js and Node.js best practices.
- Managed priorities, resource allocation and task assignments, and reported status to senior management.

Team Lead, BatchMaster Software, Indore

Jan 2018 – Mar 2020

- Developed and maintained web applications with Node.js, Laravel and React.js, covering backend APIs, database design and frontend SPAs, with a focus on performance, responsiveness and scalability.

- Implemented authentication and session management with Laravel Passport.
- Worked with cross-functional teams on user-centric features aligned with business goals, and kept code quality high through best practices.

Chief Technology Officer, AVPS Transport (MaalGaadi), Indore

May 2017 – May 2018 · previously Team Lead, Apr 2016 – May 2017

- Led a team building and deploying Laravel web applications on AWS for an online intra-city logistics marketplace.
- Set project goals, delegated tasks, tracked team performance and improved application scalability, reliability and performance on AWS.

Team Lead, Indore Infomatics, Indore

Sep 2014 – Apr 2016 · previously Software Developer (part-time), Apr 2012 – Sep 2014

- Built scalable web applications with Laravel, the MERN stack and AWS, integrating backend and frontend technologies.
- Developed APIs, managed databases, deployed to cloud infrastructure and worked with CI/CD.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science, Malwa Institute of Technology, Indore (Apr 2010 – Apr 2014)

SELECTED PROJECTS

- MaalGaadi: online logistics marketplace for intra-city cargo transport with live load tracking
- Basecamp Scout and FleetPro: enterprise product platforms
- Chai Point shop, Future Skill, Scalamed, Software Skills, ClickBetter, Big Data Tennis
