- Databases: MySQL, PostgreSQL, MongoDB, Redis
- Cloud and DevOps: AWS (EC2, S3), Docker, Kubernetes, microservices, Jenkins, GitLab CI, SonarQube, Git
- Testing: PHPUnit, Selenium, BDD (Cucumber)
- Leadership: team leadership, mentoring, code reviews, Agile/Scrum, architecture, project planning, performance tuning, application security
- Familiar with: Java, Spring Boot 3

EXPERIENCE

Senior Team Lead, Development and QA, Yunicorn Technologies, Indore

2025 – Present

- Lead the development team and the QA team.
- Review architecture and code, and decide when a release is ready to ship.

Team Lead, Kizora Software, Indore

Jan 2023 – Jul 2025

- Built web applications in React, Node.js and Laravel, using MVC and standard design patterns.
- Managed PHP dependencies with Composer and structured backend services in Laravel.

Team Leader, Persistent Systems, Indore

Mar 2020 – Dec 2023

- Led a team building and deploying MERN stack applications.
- Designed an API gateway on Node.js and Express, with PostgreSQL, MongoDB and Redis behind it.
- Set up CI/CD pipelines with GitLab, Jenkins, Docker and SonarQube, and ran code reviews.
- Wrote automated tests with PHPUnit.
- Mentored developers on MongoDB, Express, React and Node.js.
- Worked with stakeholders on requirements, set priorities, assigned work and reported progress to senior management.

Team Lead, BatchMaster Software, Indore

Jan 2018 – Mar 2020

- Built and maintained web applications in Node.js, Laravel and React, from backend APIs and database design to single-page frontends.
- Added authentication and session handling with Laravel Passport.
- Worked with product and business teams on user-facing features.

Chief Technology Officer, AVPS Transport (MaalGaadi), Indore

May 2017 – May 2018 · previously Team Lead, Apr 2016 – May 2017

- Led the team that built and deployed MaalGaadi's Laravel applications on AWS. MaalGaadi is an intra-city cargo marketplace with live load tracking.
- Set project goals, assigned work, and improved the platform's reliability and performance on AWS.

Team Lead, Indore Infomatics, Indore

Sep 2014 – Apr 2016 · previously Software Developer (part-time), Apr 2012 – Sep 2014

- Built web applications with Laravel, the MERN stack and AWS.
- Developed APIs, managed databases, deployed to the cloud and set up CI/CD.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science, Malwa Institute of Technology, Indore (Apr 2010 – Apr 2014)

PROJECTS
